

ROCKY JUNIOR

Computer Science Student | Full-Stack Web Developer

Nairobi, Kenya | 0729465262 | rockyjunior254@gmail.com | GitHub: rockyjunior254

PROFESSIONAL SUMMARY

Computer Science student and software developer with hands-on experience building modern web applications, internal management systems, and AI/data workflows. Strong in frontend UI development, backend integration, database design, and deployment using Next.js, React, TypeScript, Node.js, PostgreSQL, Supabase, and Git.

EDUCATION

Maseno University, Kisumu, Kenya | Bachelor of Science in Computer Science, Year 3

Current Cumulative GPA: A

Relevant coursework: Software Engineering, Operating Systems, Algorithms, Artificial Intelligence, and System Design.

St. Mary's School Yala, Siaya, Kenya | Kenya Certificate of Secondary Education (KCSE), Grade B+

WORK EXPERIENCE

Simka Technologies Fire Services | Software Developer | Roysambu, Nairobi | Mar 2024 - Sep 2024

- Designed and developed a mobile app, web platform, and internal management system for Simka Technologies Fire Services, helping digitize operations and improve coordination across departments.
- Built responsive user interfaces and streamlined data flow between users, staff, and administrators to support faster service delivery and better operational visibility.
- Worked closely with stakeholders to refine features, test functionality, and transition the team from a legacy workflow to a more efficient digital system.

Clip Kenya | Web Developer (Freelance) | Remote | Jan 2024 - Feb 2024

- Designed and launched an interactive, user-friendly website aligned with organizational objectives, improving accessibility and stakeholder engagement.
- Implemented responsive page layouts, polished content presentation, and clear navigation for a professional public-facing experience.

Starshot Scilliance | Data Annotation Associate | Freelance / Remote |

- Annotated and reviewed data for AI training workflows, following labeling instructions carefully to improve dataset quality and model readiness.
- Performed quality checks, consistency reviews, and structured data preparation to support reliable downstream machine learning use cases.

SELECTED PROJECTS & FREELANCE WORK

Nairobi LMS - A learning management system for students, instructors, and administrators with course catalog, enrollment, dashboards, progress tracking, payment workflows, and admin controls.

Tours and Travelling Management System - A travel operations platform covering booking, itinerary management, ticketing, payments, multi-currency support, real-time updates, and customer-friendly travel information.

Point of Sale System - A business sales and inventory platform for daily transactions, stock tracking, receipts, reporting, and role-based user access.

YouTube Stream-Vault - A video platform built with Node.js, Express, Firebase, and Nginx, featuring uploads, streaming, short-form content, and usage analytics.

Contextual Chatbot Engine - A retrieval-augmented generation (RAG) assistant with semantic search, embeddings, and model orchestration for contextual responses.

TECHNICAL SKILLS

Frontend Next.js, React, TypeScript, JavaScript, Tailwind CSS, ShadCN UI	Backend Node.js, Express, PHP, Python, Java, REST APIs, GraphQL
Databases PostgreSQL, Supabase, MySQL, MongoDB, database design, query optimization	Tools & Delivery Git, GitHub, Docker, Nginx, AWS, Firebase, VS Code, responsive design, collaboration

CERTIFICATIONS & TRAINING

- Kubernetes Operators Intermediate - IBM (Apr 2025)
- Machine Learning Specialist - IBM (May 2025)
- CCNA 3: Enterprise Networking, Security, and Automation - Cisco (Mar 2025)
- Containers, Kubernetes, and OpenShift V2 - IBM (Apr 2025)

ACTIVITIES

Microsoft Learn Student Ambassador | Member | Jan 2023 - Dec 2024

- Contributed to tech community learning, peer support, and event-based initiatives focused on practical digital skills and collaboration.

CORE STRENGTHS

- End-to-end full-stack delivery covering user interface design, backend logic, database integration, and deployment.
- Strong problem solving, debugging, and documentation habits that help move projects from concept to usable product.
- Comfortable building systems for education, travel, sales, internal operations, and data-focused workflows.
